

FURNISHING THE FUTURE

The ergonomic workstation experts

For over 120 years, OTTOKIND has been synonymous with high-quality, durable workstations made in Germany. Our range of products caters to professional needs, including ergonomic workstations, workbenches, and acoustic solutions.

OTTOKIND products empower you to create modern, cost-effective workspaces. Our emphasis on organised workplaces, ergonomic design, and comfortable operation directly contributes to productivity, efficiency, and employee well-being.

We work closely with our specialist retail partners, guiding clients from initial ideas to successful project completion. We enhance productivity and health through careful analysis, strategic planning, and custom solutions.

YOUR ADVANTAGES WITH OTTOKIND PRODUCTS

- ✓ Optimised processes
- ✓ Increased productivity
- ✓ Greater efficiency
- ✓ Monetary savings
- ✓ Higher employee satisfaction
- ✓ Decreasing sickness rates

Customised special solutions

At OTTOKIND, we understand that one size doesn't fit all when it comes to work solutions. That's why we create custom solutions based on your preferences. The outcome? Efficient workstations that perfectly match your needs and streamline processes.

MODULAR ACOUSTIC SYSTEMS

Effective sound insulation for more working comfort

Effective sound insulation helps employees stay focused and work efficiently, even in noisy workplaces. OTTOKIND's acoustic systems effectively reduce noise pollution, promoting better health and preventing costly production delays. Our flexible room-in-room solutions and modular noise barriers fit any room layout, creating a calm, pleasant atmosphere for happy employees.

Versatile Soundproof Chamber: Ideal for Welding

Versatile Soundproof Office Cabin

Mobile acoustic partition wall

Effective noise protection

Comfortable working

Lower costs

Modular design

ERGONOMIC WORKSTATION SYSTEMS

Flexible all-rounders for healthy working

OTTOKIND provides customizable workstations—from light packaging tasks to heavy-duty tables capable of handling up to 2 tonnes. Our ergonomic solutions include electronic height adjustment for maximum comfort. By optimising work processes, we enhance employee health and productivity, resulting in minimal downtime and maximum flexibility.

Heavy-duty table multi4power mobile, loadable up to 2 tonnes

Adaptable electronic height-adjustable assembly workstation

Corner workstation with superstructures

High ease of use

Modular design

Shorter reach distances

Flexibly configurable

ROBUST WORKBENCH SYSTEMS

Functional workstations for productive work

Whether in the workshop, warehouse or production plant – OTTOKIND workbenches are made for professionals. They are high-quality, robust and virtually wear-free, making them ideal for use in demanding everyday working conditions. The different workbench types can be configured with drawers, system superstructures and functional walls according to your requirements. This creates perfectly equipped and optimally organised workstations that ensure ideal work processes and higher productivity.

Mobile workbench with lockable castors and drawer combination

Workbench with door/drawer combination and system structure with LED lighting

Workbench with superstructure and shelf

Extremely resilient
