DURABLE WORKBENCH SYSTEMS

Functional Workstations for Maximum Productivity

Whether in a workshop, warehouse, or production plant, OTTOKIND workbenches are built for professionals. These high-quality, robust, and virtually wear-free workstations are designed for demanding daily operations.

Our range of workbenches is designed to accommodate a variety of work scenarios and can be customized with system superstructures, functional walls, and accessories to suit specific needs.

Extremely resilient

A stable and secure construction capable of handling heavy loads.

Long-lasting durability

A highly robust piece of furniture that withstands heavy use with minimal signs of wear and tear.

Optimal organisation

Increased productivity through workplace configuration tailored to individual needs.

Extensive variety

The ideal model for every application.

WORKBENCH FUNCTION

- ✓ Perforated side panels for optional accessories
- ✓ Power and energy supply possible
- ✓ With 40 mm thick beech multiplex board, oiled
- ✓ Load capacities up to over 1 tonne
- ✓ drawers with full-extension runners and 70 kg load capacity
- ✓ Delivery: assembled

ERGONOMIC WORKPLACE SYSTEMS

Flexible all-rounders for healthy working

Whether workstations for light packaging tasks or heavy-duty tables for extreme loads of up to 2 tonnes. With plenty of storage space or with functional elements. OTTOKIND offers an ergonomic workstation solution for every requirement, which can be individually configured. Naturally also with electronic height adjustment for maximum comfort.

And with an extensive range of accessories – from slatted shelves and lights to complete desk assembly sets.

Our table frames are painted light grey and are ESD conductive. However, to achieve a fully dissipative workstation, additional equipment is necessary. You can find a pre-configured ESD workbench on page 25.

Ease of use

Can be customised for each employee with height adjustments and various attachments.

Shortened assembly and reach distance

Compact and organised workstation design, improving efficiency.

Extremely resilient

The tables and attachments are extremely resilient and robust.

Industry-Specific Variations

The perfect design for all requirements. Customisable with a variety of accessories.

MODULAR ACOUSTIC SYSTEMS

Effective sound insulation for more working comfort

In work environments with constant background noise, effective sound insulation enhances concentration, precision, and efficiency. Acoustic systems from OTTOKIND significantly reduce noise pollution, helping to prevent health risks and avoid costly production downtimes. Our modular acoustic booths and partitions can be configured to suit any work situation, whether in a small workshop or a large industrial plant. This creates a cozy atmosphere of peace and quiet, resulting in a pleasant working environment and satisfied employees.

Effective Noise Protection

Achieving a measurable reduction in noise pollution, preventing health risks.

Comfortable Work Environment

Improves the work atmosphere and promotes greater well-being for employees.

Reduced costs

Achieved through fewer sick days and maintaining consistent productivity.

Modular design

Available in three widths and three heights, making it configurable for every room situation.

ROOM-IN-ROOM SOLUTIONS

How our acoustic system works

Our acoustic panels feature a robust steel construction consisting of both smooth and perforated sheet steel panels. The perforated side refracts sound, while the smooth side reflects it, preventing its transmission. Between the smooth and perforated sheets, there is a B1-classified polyester fleece that absorbs and insulates sound effectively.

Customised special solutions

There are no off-the-shelf solutions for certain work situations. That's why OTTOKIND develops and produces customised solutions that meet your requirements. This creates productive workstations perfectly tailored to requirements and ensures optimised processes. In addition to the colours shown here, our products are available in many other RAL colours at no extra charge.

Get in touch with us!

Your specialised dealer:

Our offers are exclusively available for trade, industry, craftsmanship, and commerce. Please note that delivery does not include accessories or decoration. All prices are valid only for Germany and do not include statutory VAT. For deliveries within Germany, we offer free kerbside delivery for orders with a net value of €1,000 or more. For orders below this amount, a flat delivery fee of €30 per address will be charged. Special conditions apply for island deliveries, and we would be happy to provide more information upon request. You can find the General Terms and Conditions of Otto Kind GmbH & Co KG on our website at www.ottokind.de/de/agb.
